

# PRO-SERIES WALL SAW WET BLADES

**WEL-CO WALL SAW BLADES** are manufactured with a high concentration of high quality diamonds. They are designed to be used on hydraulic, electric, and air wall saws for the fastest cut and lowest cost in custom sawing. Sandwich and Saddle segments are available to assure speed and longevity. Each blade has a wide cutability range to assure versatility from job to job. All wall saw blades come standard with 1" arbor. Please specify arbor size if different than 1".

Application Specs	
WS-03	Electric and Air Saw—For fast cutting river gravel with dull sand
WS-05	Hydraulic Saw—For fast cutting river gravel with dull sand
W-1	Hydraulic Saw—For fast cutting hard aggregate and sharp sand
WS-2	Electric, Air and Hydraulic Saws—For fast cutting soft, abrasive materials

**PRO  
SERIES**

### SANDWICH SEGMENT

Add the suffix **-AB** to the correct bond spec to indicate sandwich segments

### SOFT/HARD SEGMENT

Add the suffix **-SH** to the correct bond spec to indicate alternating segments

### SADDLE SEGMENT

Add the suffix **-SD** to the correct bond spec to indicate saddle segments

#### AVAILABLE SIZES

18" x .160	26" x .187	32" x .187
18" x .187	26" x .218	32" x .218
18" x .218	26" x .250	32" x .250
18" x .250	28" x .187	36" x .187
24" x .160	28" x .218	36" x .218
24" x .187	28" x .250	36" x .250
24" x .218	30" x .187	42" x .187
24" x .250	30" x .218	42" x .250
26" x .160	30" x .250	48" x .250

# PRO-SERIES HAND-HELD SAW WET BLADES

**WEL-CO HAND SAW BLADES** are manufactured with a high concentration of high quality diamonds. They are designed to be used on handheld hydraulic or air saws for the fastest cut and lowest cost in professional sawing. A choice of bonds and diamond depths are available to match the blade with the job. Each blade has a wide cut-ability range to assure versatility from job to job.

**PRO  
SERIES**

Application Specs	
WHS-03-SDL	Air Saw—For fast cutting river gravel with dull sand
WHS-05-SDL	Hydraulic Saw—For fast cutting river gravel with dull sand
WHS-1-SDL	Hydraulic Saw—For fast cutting hard aggregate and sharp sand
WHS-2-SDL	Air and Hydraulic Saws—For fast cutting soft, abrasive materials

#### AVAILABLE SIZES

18" x .125    20" x .125    24" x .150

# PRE-STRESSED HOLLOW CORE CONCRETE DIAMOND BLADES

Wel-Co has been servicing the pre-stress concrete industry since the late 1970's. This time has allowed us to gain valuable knowledge and experience with pre-stress concrete diamond tool application.

Wel-Co uses a high concentration of high quality DeBeers (Element Six) and GE (Diamond Innovations) diamond. With our state of the art manufacturing plant in Oldsmar, FL, we can produce excellent quality, consistency, and performance providing the lowest cost per cut.

Application Specs	
PST-15	For wet cutting steam or heated bed, cured pre-stress concrete with medium to hard aggregate
PST-20	For wet cutting green pre-stress concrete with medium to hard aggregate dull sand
PST-25	For wet cutting green pre-stressed concrete with medium to hard aggregate and sharp sand
PST-30	For wet stack cutting green pre-stressed concrete with soft aggregate and sharp sand
PST-35	For wet cutting green pre-stressed concrete with soft aggregate and sharp sand

#### AVAILABLE SIZES

24" x .218  
28" x .218  
30" x .260  
32" x .270  
36" x .270  
38" x .270  
42" x .290  
48" x .290
